PROFESSIONAL SUMMARY

Full-Stack Developer proficient in building responsive, scalable web applications using the MERN stack (MongoDB, Express.js, React, Node.js) and templating engines like EJS. Hands-on experience in RESTful API development, state management, and relational database integration. Adept at translating complex requirements into efficient, maintainable code across the entire software development lifecycle. Seeking to deliver reliable full-stack solutions and drive technical growth in an engineering team.

EDUCATION

- Bachelor of Technology in Computer Science and Engineering
GNA University, Phagwara, Punjab
July 2022 - July 2026
CGPA: 9.17
- Senior Secondary Education (12th Grade)
Government Senior Secondary School, Karnana, Punjab
April 2021- March 2022
Percentage: 95.6%

INTERNSHIP EXPERIENCE

- Full-Stack Development Intern | Excellence Technology, Mohali, Punjab** **Jan 2026 – Jul 2026**
 - Built and deployed scalable full-stack web applications using React.js, Node.js, Express.js, and MongoDB.
 - Designed secure RESTful APIs with JWT authentication and middleware for role-based access control (RBAC).
 - Assisted in optimizing MongoDB queries and database schema for improved application performance.
 - Implemented central state management using Redux Toolkit / Context API across complex React UI components.
 - Collaborated with developer groups and Agile/Scrum teams, managing codebases using Git/GitHub.
- Software Development Intern | Boxl Technologies, Gurgaon, Haryana** **Jul 2025 – Aug 2025**
 - Engineered dynamic, server-side rendered (SSR) web applications using Node.js, Express.js, MongoDB, and EJS.
 - Implemented user authentication, security protocols, and CRUD operations for restricted data access.
 - Built and consumed custom RESTful APIs to facilitate efficient client-server data communication.
 - Worked within agile workflows, participating in daily standups and collaborative Git feature branching.
- Full-Stack Development Intern | Excellence Technology, Mohali, Punjab** **Jun 2024 – Jul 2024**
 - Developed responsive, accessible user interfaces using HTML5, CSS3, JavaScript (ES6+), and React.js.
 - Integrated third-party and custom RESTful APIs into React components for dynamic UI updates.
 - Performed front-end testing, cross-browser compatibility checks, and UI debugging across devices.
 - Managed version control and collaborative code updates through Git/GitHub.

PROJECTS

- UniEvent — Campus Event Management & QR Attendance System**
Full-Stack Development | React.js, Node.js, Express.js, MongoDB, JWT, Tailwind CSS
 - Built a multi-role platform for event creation, registration, and admin approval workflows.
 - Engineered QR code generation and live scanning validation for secure attendance tracking.
 - Designed role-based dashboards with dynamic filtering for attendance analytics and user feedback.
- WorkSphere — AI-Driven Collaborative Task Management Platform**
Full-Stack & AI Architecture | React, Node.js, Express.js, MongoDB, Google Gemini API
 - Built file management supporting document previews and bi-directional PDF-to-Word / Word-to-PDF conversions.

- Integrated Google Gemini 2.5 Flash API for context-aware task roadmaps and automated subtask suggestions.
 - Built custom workspaces enabling multi-language code execution for JavaScript, Python, Java, and C++.
 - Implemented JWT authentication and role-based access control (RBAC) across shared workspaces.
- **AI Resume Builder — Intelligent Content Generation Platform**
Full-Stack & AI Integration | React.js, Strapi CMS, PostgreSQL (Supabase), OpenAI API, Clerk
 - Integrated OpenAI APIs to generate ATS-friendly experience bullet points and career summaries.
 - Built a modular React preview system providing real-time visual feedback during resume editing.
 - Configured Strapi CMS with Supabase (PostgreSQL) and Clerk for secure user authentication and storage.
 - **CareerLink — Full-Stack Recruitment & Job Portal**
MERN Stack Architecture | React.js, Redux Toolkit, Node.js, Express.js, MongoDB, Cloudinary
 - Engineered a job portal supporting applicant profile management, job search, and recruiter listings.
 - Managed global state using Redux Toolkit and integrated Cloudinary for resume and media uploads.
 - Secured REST API endpoints using JWT cookies and role-based access for candidates and recruiters.
 - **Wandervise — Travel Agency & E-Commerce Platform**
Full-Stack SSR Application | Node.js, Express.js, MongoDB, EJS, Bootstrap, Stripe API
 - Built a server-side rendered web app for tour packages, product shop, and coupon management.
 - Integrated Stripe API for secure payments and created an admin dashboard to manage bookings and users.
 - **LensFillers — Photography Studio Portfolio**
Client Freelance Project | React.js, Node.js, Express.js, MongoDB, CSS3
 - Deployed an SEO-optimized portfolio website for a Canadian studio showcasing photo galleries and services.
 - Built custom RESTful APIs and an admin panel for photo album uploads and customer inquiry handling.

SKILLS

- **Programming Languages:** JavaScript (ES6+), C++, C, Java, PHP, Python (Basic)
- **Web Technologies:** HTML5, CSS3, Responsive Web Design
- **Front-End Technologies:** React.js, Next.js, Redux Toolkit, Tailwind CSS, Bootstrap, ShadCN UI
- **Back-End Technologies:** Node.js, Express.js, EJS, RESTful APIs, API Integration, JWT Authentication, OAuth 2.0, Role-Based Access Control (RBAC)
- **Databases:** MongoDB, PostgreSQL, MySQL, Mongoose, SQL
- **AI & Cloud Services:** OpenAI API, Google Gemini API, Cloudinary, Stripe API, Clerk Authentication, Strapi CMS
- **Developer Tools:** Git, GitHub, Postman, npm, Chrome DevTools, Vercel, Render
- **Software Development Practices:** Component-Based Architecture, Web Accessibility (a11y), Agile/Scrum Methodology, UI/UX Design
- **Core Competencies:** Problem-Solving, Communication, Team Collaboration, Adaptability, Time Management, Critical Thinking, Attention to Detail, Fast Learner, Creativity, Leadership

LANGUAGES

English (Fluent), Hindi (Fluent), Punjabi (Native)
